Subject: VB/I-70 and Coliseum property - status update and next steps

Hi everyone:

First, I wanted to thank everyone for their hard work and great cooperation in getting the AOC and associated Statement of Work finalized. Since then, we have been busy!

Denver has completed initial environmental and is working through a variety of design concepts. There are a number of constraints to work with. At the same time, our environmental investigations have provided information that might create opportunities to explore. We wanted to schedule a meeting to talk through our initial environmental findings and the status of design concepts. We'd like to hold that meeting ideally the last week of August or the first week of September.

I'm copying the attorneys just so they're informed regarding our intention to meet. I am envisioning this as a technical meeting at which legal staff are not required. Please let me know if you see it differently. Also, if you think your attendance is not required, please let me know as it can be difficult to get a large group together.

Tricia Ortega will be contacting you to set up a meeting, via a doodle poll regarding your availability. We'll likely need 90 minutes.

Hope to see you all in a couple weeks.

Celia VanDerLoop | Environmental Project Manager
